

## Plants Grow Children

Dear Parents:

Today your child learned about **Everyday Insects** in a special class taught by our volunteer Master Gardeners. The class learned about the fascinating world of insects. Each student had the opportunity to make and name their own insect to bring home. We hope you'll share with your child the wonder of the insect world and take the time to learn about good bugs and bad bugs.

The class was taught by WSU Extension Master Gardeners. Master Gardeners are volunteers who receive over 50 hours of formal training on a variety of gardening topics. In return for their training, the volunteers agree to return 50 hours of volunteer service to Extension. They return this service in a variety of ways, such as teaching our special plants classes in local schools, or answering gardening questions over the phone in the Extension office and in local plant clinics.

Master Gardeners provide free advice and answers to plant and garden problems. If you have a gardening question or want to know more about the WSU Extension 4-H Youth Program, contact your local county WSU Extension office.

Sincerely,

*Benton-Franklin Washington State University Extension*  
&  
*The Benton & Franklin WSU Master Gardeners*

**Cooperating agencies: Washington State University, USDA, and Benton County.  
Extension programs and employment are available to all without discrimination.**
