

Plants Grow Children

Dear Parents:

Today your child learned about **Trees** in a special class taught by our volunteer Master Gardeners. The class learned about the benefits of trees and how trees grow. Each student had the chance to make a special tree booklet to take home. Trees are valuable to us and our community. Take some time to appreciate trees with your child.

The class was taught by WSU Extension Master Gardeners. Master Gardeners are volunteers who receive over 50 hours of formal training on a variety of gardening topics. In return for their training, the volunteers agree to return 50 hours of volunteer service to Cooperative Extension. They return this service in a variety of ways, such as teaching our special plants classes in local schools, or answering gardening questions over the phone in the Extension office and in local plant clinics.

Master Gardeners provide free advice and answers to plant and garden problems. If you have a gardening question or want to know more about the WSU Extension 4-H Youth Program, contact your local county WSU Extension office.

Sincerely,

Benton-Franklin Washington State University Extension
&
The Benton & Franklin WSU Master Gardeners
